DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Friday, 10 February 2023 at 05:48 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Mainly Low air pollution expected across the UK, but with isolated Moderate levels possible close to major roads and urban centres, especially across central and southern England where winds are light.

Tomorrow: Air pollution is expected to be Low on Saturday, with a chance of localised Moderate levels close to urban centres, mainly in light winds in southeast England.

Outlook: Low levels of air pollution are forecast for much of the country through the outlook period, but with a risk of localised moderate levels, mainly for the south and southeast.
